Engineering & Energy

Corporate Governance Structure

Three Lines of Defense Model

Board of Directors & Audit Committee

FIRST LINE

Business Operations &
Internal Controls

Own and manage day-to-day risks within business operations.

Design, implement, and maintain effective internal controls.

Ensure policies, procedures, and limits are followed.

Identify, assess, and escalate risks and control issues.

SECOND LINE

Risk Management &
Compliance Oversight

Develop and maintain enterprise-wide risk management frameworks.

Monitor risk exposures and ensure risk appetite and limits are adhered to.

Oversee compliance with laws, regulations, and internal policies.

Provide guidance, challenge, and independent oversight to the First Line.

THIRD LINE

Internal Audit &
Independent Assurance

Provide independent and objective assurance on governance, risk management, and controls.

Evaluate the effectiveness of the First and Second Lines.

Identify issues and provide recommendations for improvement.

Report findings to the Audit Committee and follow up on remediation.

Annual external audit by Big Four firm

Core Capabilities & Expertise

65+ professionals across actuarial, underwriting, and risk disciplines

Technical Underwriting

- Deep domain and product expertise
- Rigorous risk selection and pricing
- Treaty structuring and negotiation

Actuarial Science

- Pricing, reserving, and financial projections
- Capital modeling and solvency assessment
- Experience analysis and insights

Risk Modeling

- Catastrophe and exposure modeling
- Scenario and stress testing
- Portfolio risk aggregation and analytics

Claims Management

- End-to-end claims handling expertise
- Complex claims resolution and recovery
- Data-driven claims insights and control

Investment Management

- Strategic asset allocation and portfolio optimization
- Credit and market risk management
- Performance analytics and reporting

Regulatory Compliance

- Strong governance and control framework
- Regulatory reporting and disclosure
- Compliance monitoring and advisory

Closing the protection gap

RiyadhRe
الرياض لإعادة التأمين

Saudi reinsurance demand increased 68% annually as Vision 2030 infrastructure accelerates

Source: Insurance Authority Market Analysis Q4 2025

Market Transformation

CHALLENGE

Limited local reinsurance capacity

forced Saudi insurers to rely on international markets with higher costs and currency exposure risk.

Higher reinsurance costs due to international market premiums

Currency exposure risk from non-SAR-denominated programs

Limited local capacity restricting growth and resilience

SOLUTION

Riyadh Re provides

SAR 3.7B

local capacity

with competitive pricing, SAR-denominated coverage, and deep market understanding.

Competitive pricing
delivering value and efficiency

SAR-denominated coverage

eliminating currency mismatch risk

Deep market understanding

local expertise, stronger outcomes

RiyadhRe

الرياض لإعادة التأمين

SUPPORTING VISION 2030

RiyadhRe
الرياض لإعادة التأمين

Riyadh Re provides critical reinsurance capacity that enables Saudi Arabia's transformation across key development sectors.

OUR ROLE

Strengthening resilience, transferring risk, and unlocking capacity for the Kingdom's sustainable growth.

INFRASTRUCTURE

SAR 850M

INFRASTRUCTURE REINSURANCE

Supporting mega projects, transportation networks, utilities, and public infrastructure that drive national connectivity and economic growth.

ENERGY

SAR 620M

ENERGY & CONSTRUCTION COVERAGE

Enabling energy security and transition through upstream projects, power generation, renewables, and construction risk solutions.

COMMERCIAL PROPERTY

SAR 410M

COMMERCIAL PROPERTY PROTECTION

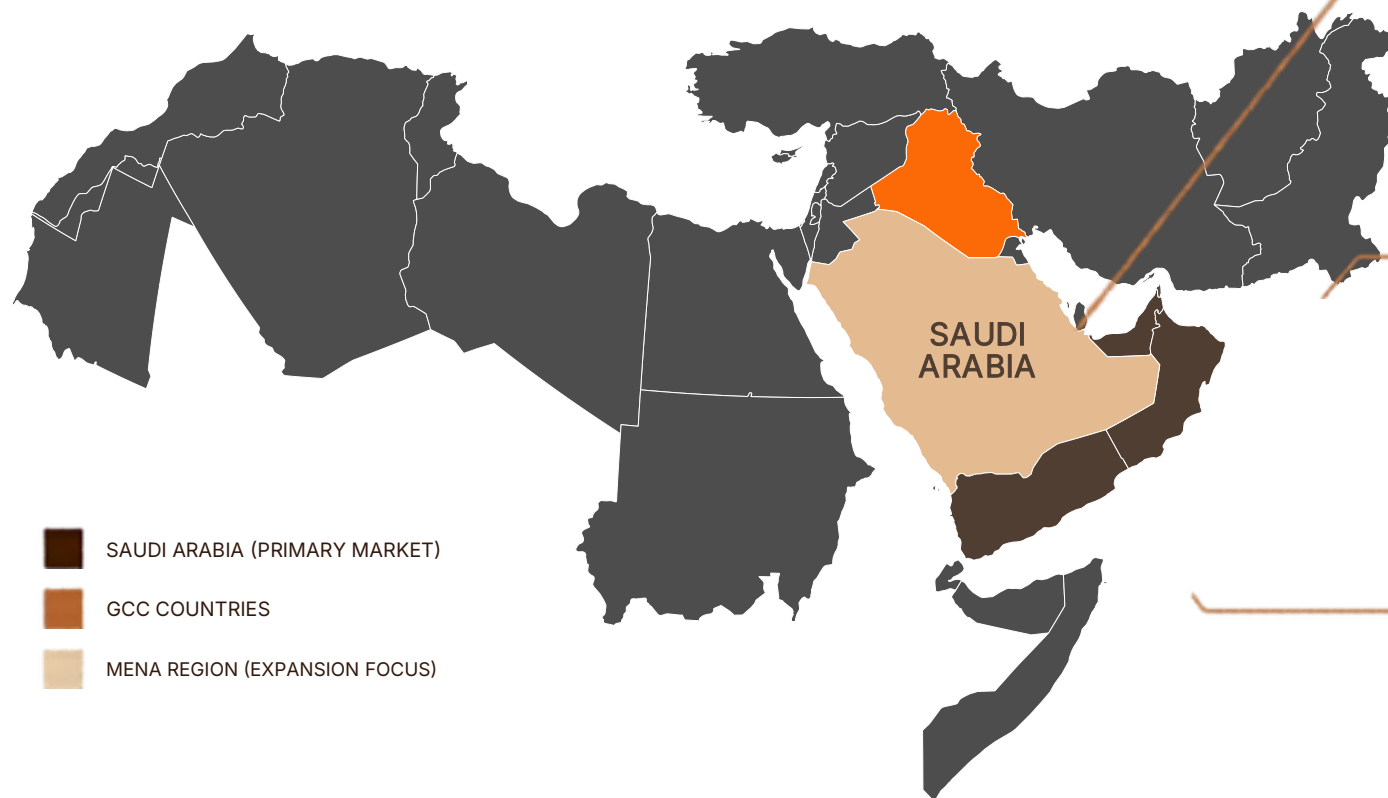

Protecting commercial assets, mixed-use developments, and real estate investments that support urban growth and livability.

Riyadh Re strengthens the Kingdom's risk resilience and investment capacity, advancing Vision 2030 through insurance solutions that empower progress.

GEOGRAPHIC STRATEGY

RiyadhRe
الرياض لإعادة التأمين

- SAUDI ARABIA (PRIMARY MARKET)
- GCC COUNTRIES
- MENA REGION (EXPANSION FOCUS)

PHASE 1: SAUDI ARABIA & GCC

Primary focus market | 2026-2027

Consolidate our leadership in Saudi Arabia and GCC markets through deep local expertise, strong partnerships, and tailored solutions.

PHASE 2: MENA EXPANSION

Strategic growth | 2028-2029

Expand across key MENA markets, leveraging our regional platform to deliver value and diversify our portfolio.

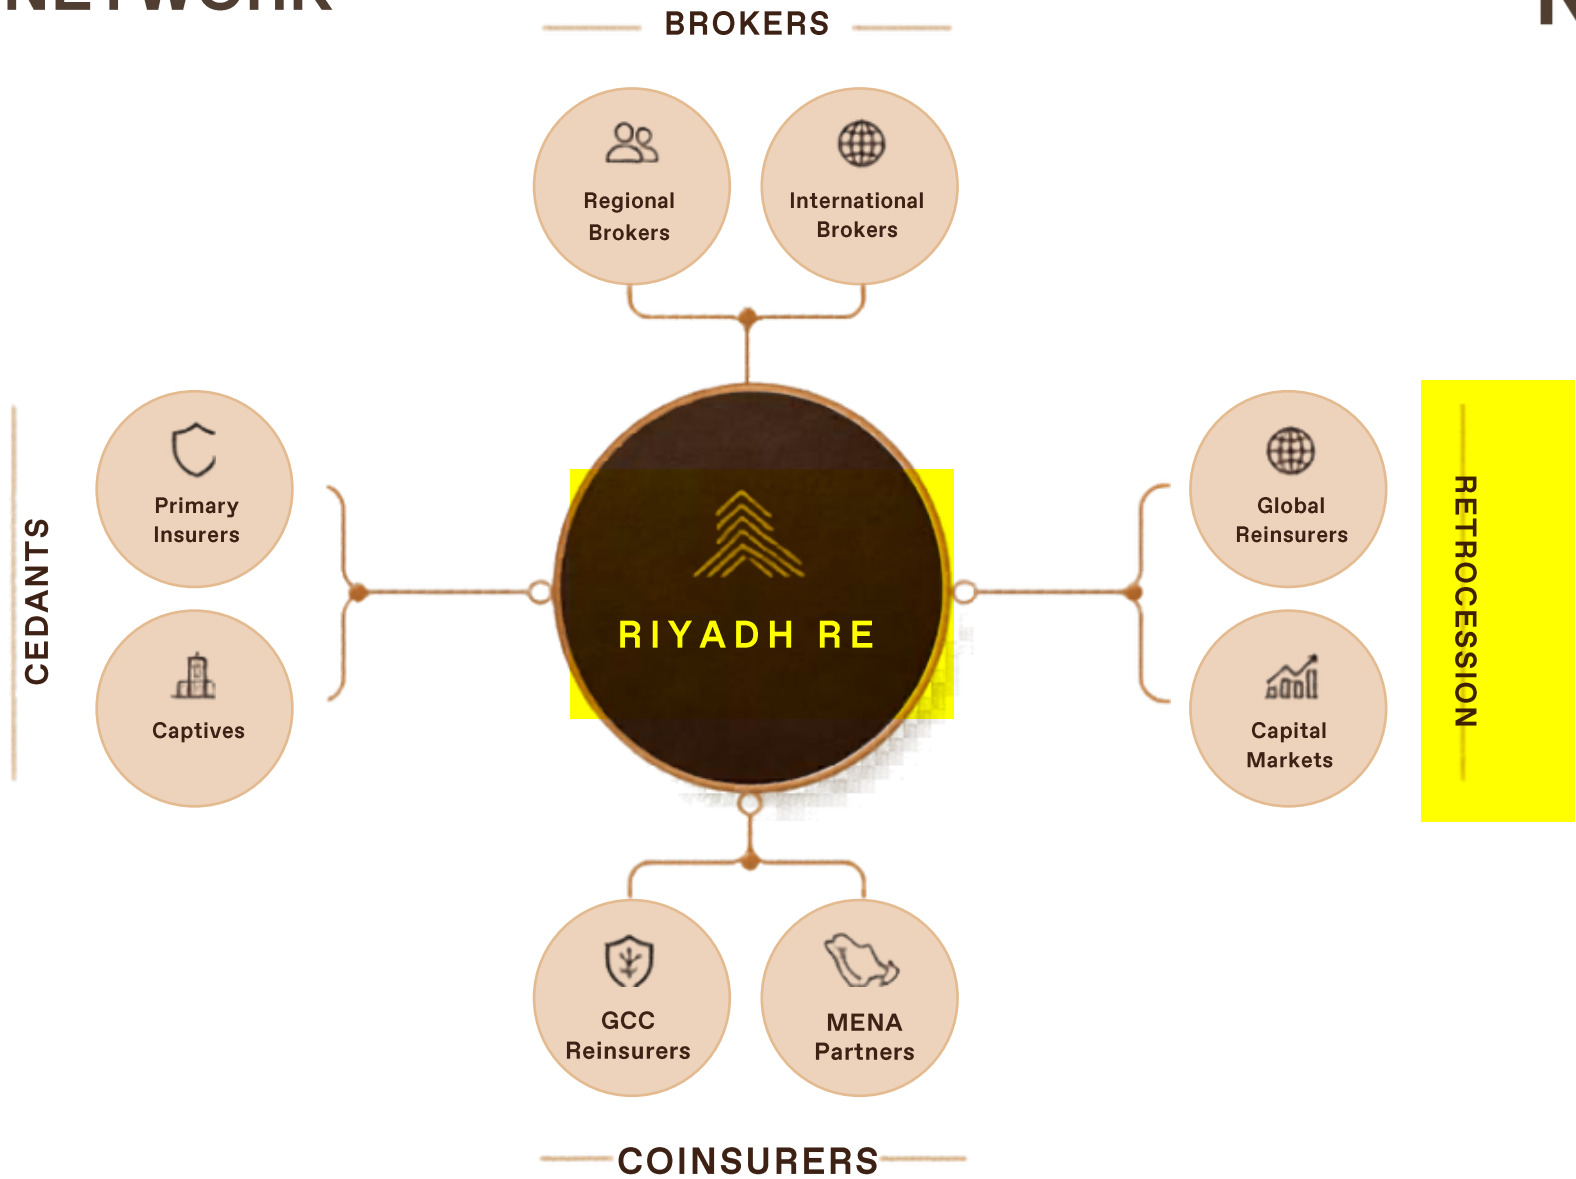

PHASE 3: INTERNATIONAL RECOGNITION

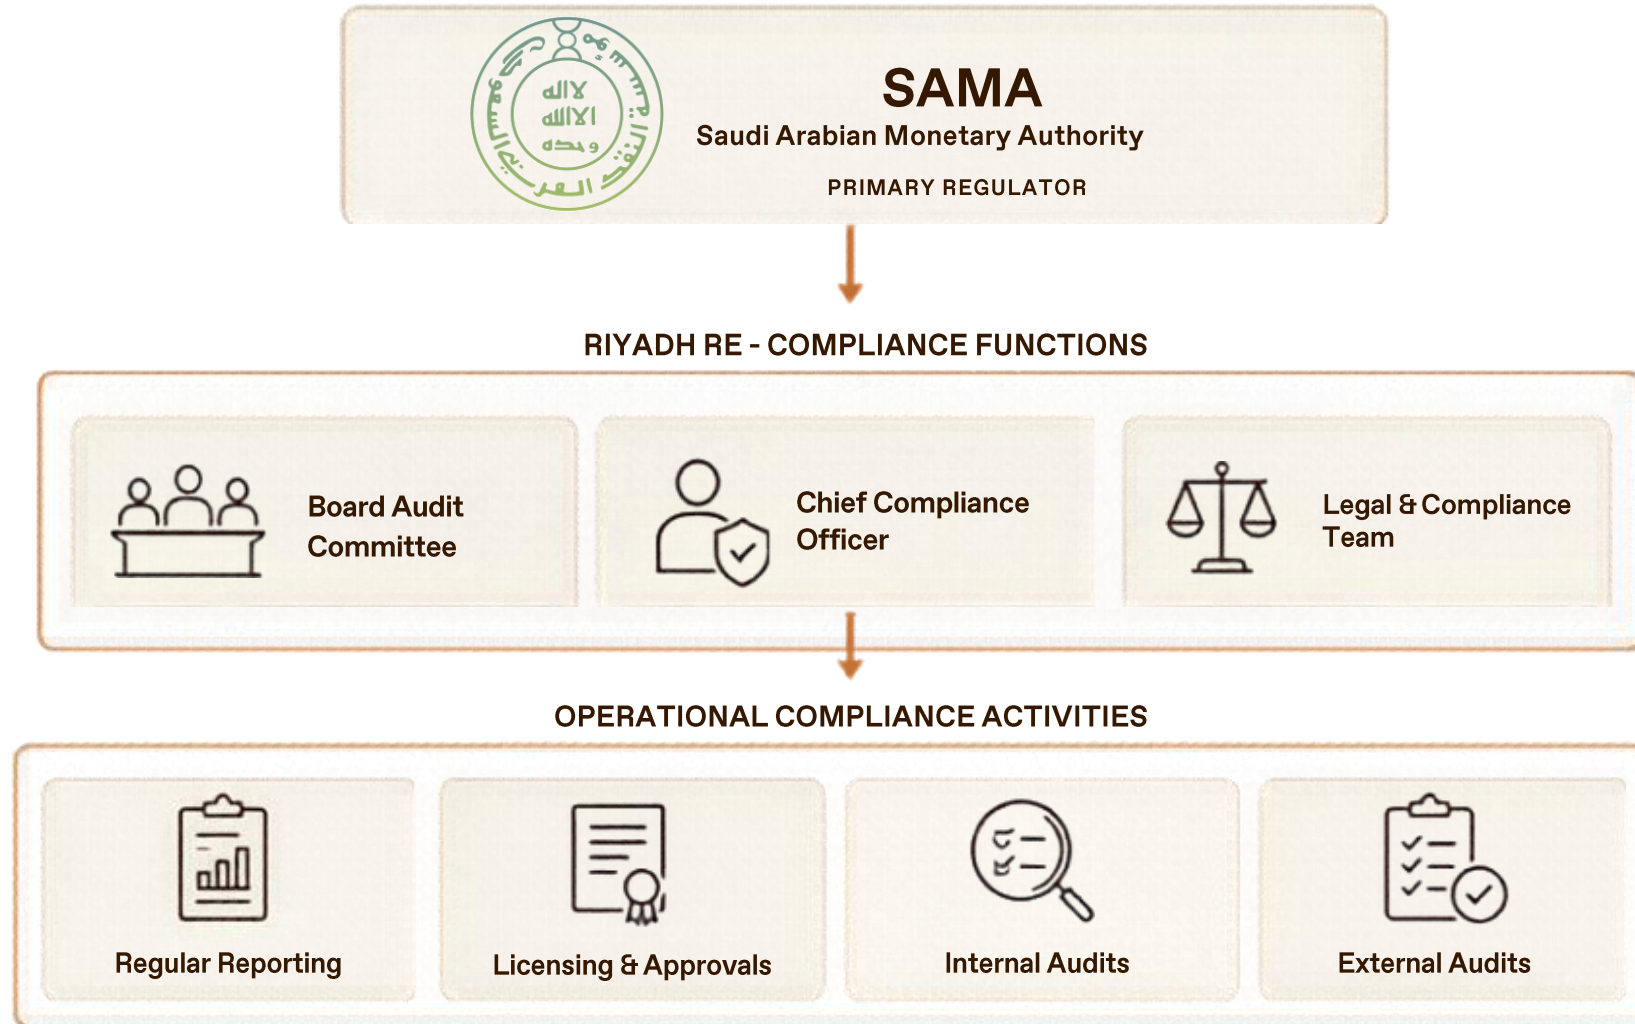

Long-term ambition | 2030+

Build a broader international presence and strengthen relationships with global partners to become a recognized reinsurance leader.

Underwriting Process Flow

Risk Appetite Framework

Riyadh Re's underwriting appetite across risk dimensions

Underwriting Pricing Framework

 Line of Business	 Pricing Method	 Key Rating Factors	 Benchmark Loss Ratio	 Adjustments Applied
 Property (Exposure-based)	Exposure Rating	TIV, construction class, protection features, location, occupancy, perils covered, earthquake zone, flood zone	45% – 65% (Target: 55%)	Peril volatility, accumulations, risk quality, protection credits, deductible level, policy terms and conditions
 Casualty (Experience-rated)	Experience Rating	Loss history, frequency and severity, industry class, payroll/exposure base, jurisdiction, limits, retention, claims handling	50% – 70% (Target: 60%)	Trend factors, inflation, loss development, large losses, coverage enhancements, retention level
 Engineering (Project-specific)	Project Rating	Project type, value, duration, construction methodology, contractor experience, site conditions, maintenance plan, testing & commissioning	40% – 60% (Target: 50%)	Project complexity, technical risks, delay exposure, limits, warranty period, claims history of parties
 Energy (Technical underwriting)	Technical Underwriting	Asset type, well-field data, reservoir characteristics, HSE performance, operational history, location, catastrophe exposure, security	30% – 50% (Target: 40%)	Commodity price volatility, operational risk, geopolitical risk, HSE controls, contract structure, limits and attachments
 Specialty (Judgment-based)	Judgment Rating	Unique risk characteristics, management expertise, financial strength, brand/reputation, emerging exposures, scenario analysis, market dynamics	25% – 45% (Target: 35%)	Underwriter judgment, portfolio fit, strategic considerations, uncertainty load, capacity appetite

Competitive Advantages

 Subscription flexibility	Design coverages that suit non-traditional risks
 Solvency	Strong financial stability ensures that commitments are met
 Local Expertise	Deep understanding of legislation in the Saudi market

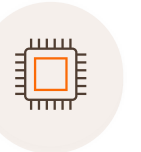

Competitive Advantages

Pension: Global annual shortfall in savings needed to achieve a 65% level of income replacement.

Cyber: Global annual uninsured losses (about 99% of economic losses from cyber incidents).

Health: Global annual financially stressful out-of-pocket health expenditure.

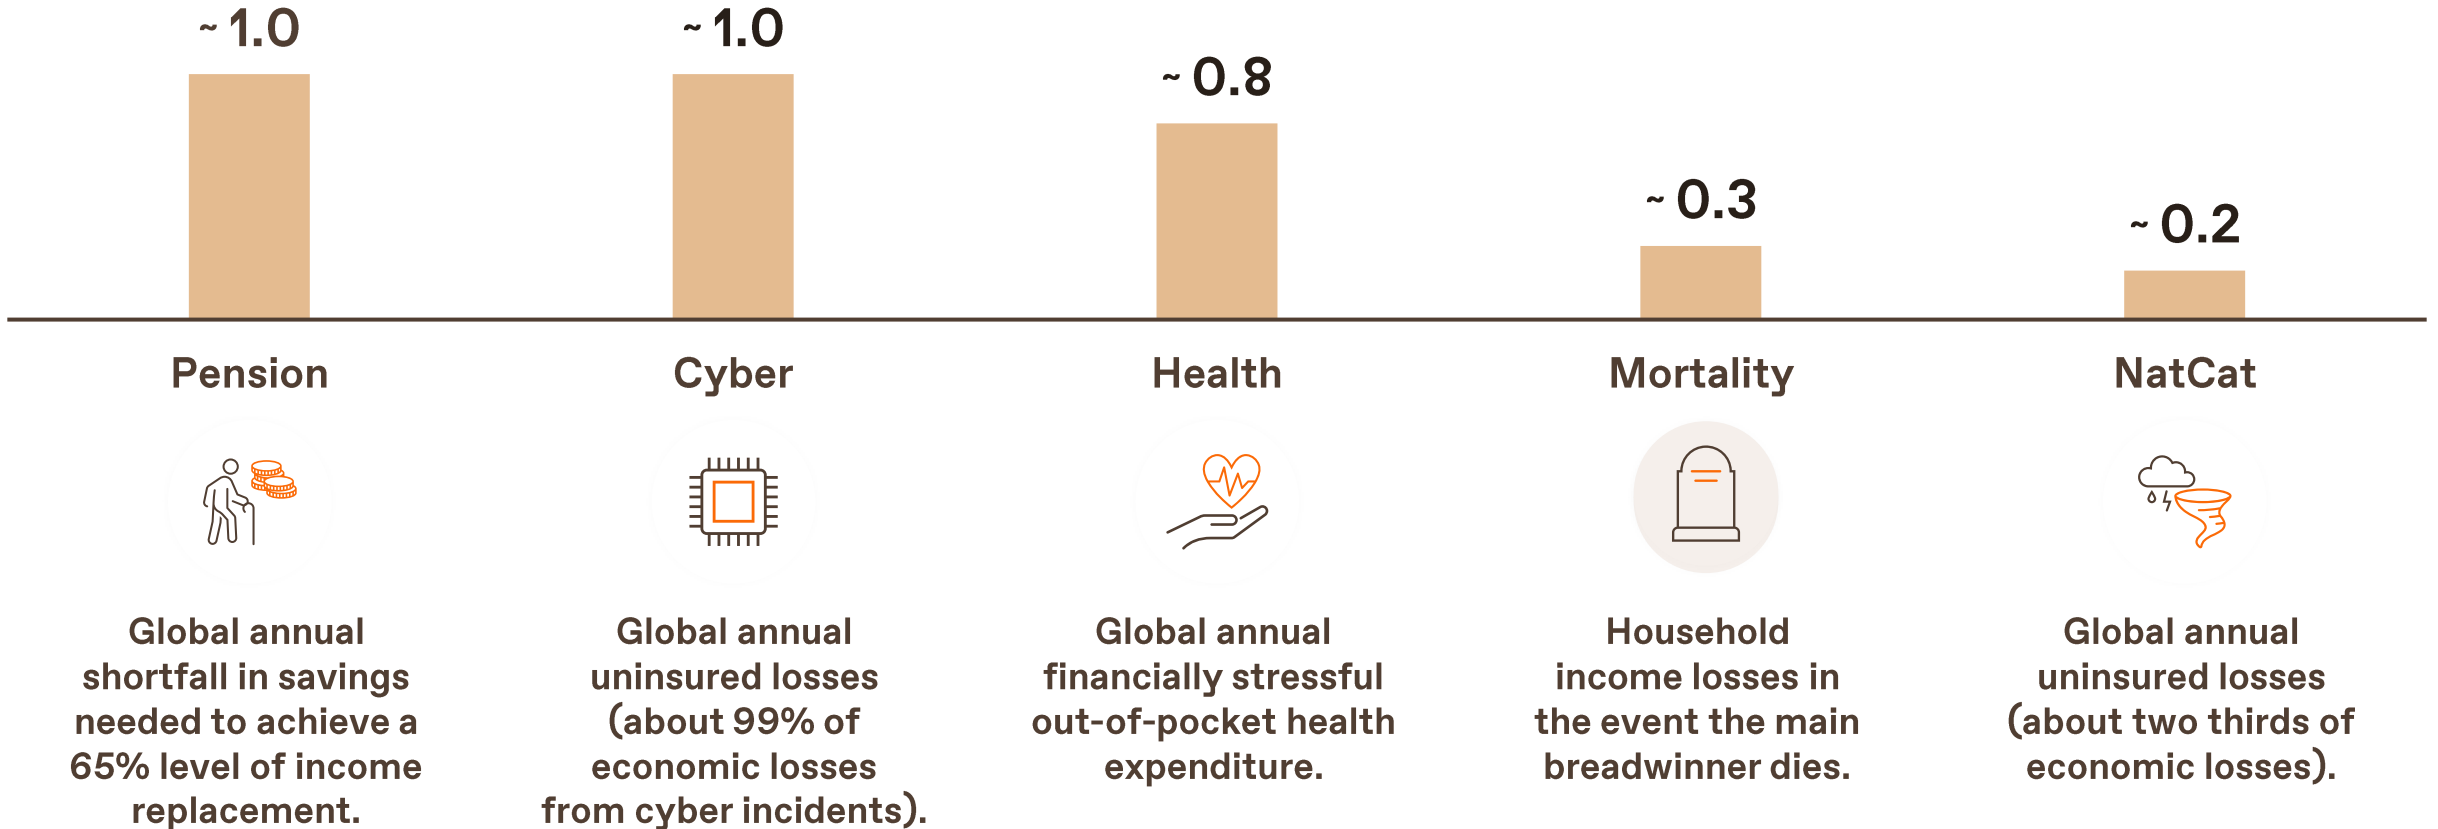

Mortality: Household income losses in the event the main breadwinner dies.

NatCat: Global annual uninsured losses (about two thirds of economic losses).

Competitive Advantages

Enterprise Risk Management Framework

RISK GOVERNANCE STRUCTURE

1. BOARD RISK COMMITTEE

Oversight of enterprise risk appetite, strategy and risk management effectiveness.

2. CHIEF RISK OFFICER

Accountable for enterprise risk management framework, policies and performance.

3. RISK MANAGEMENT TEAM
Designs, monitors and reports on risk framework, analytics, limits and risk culture.

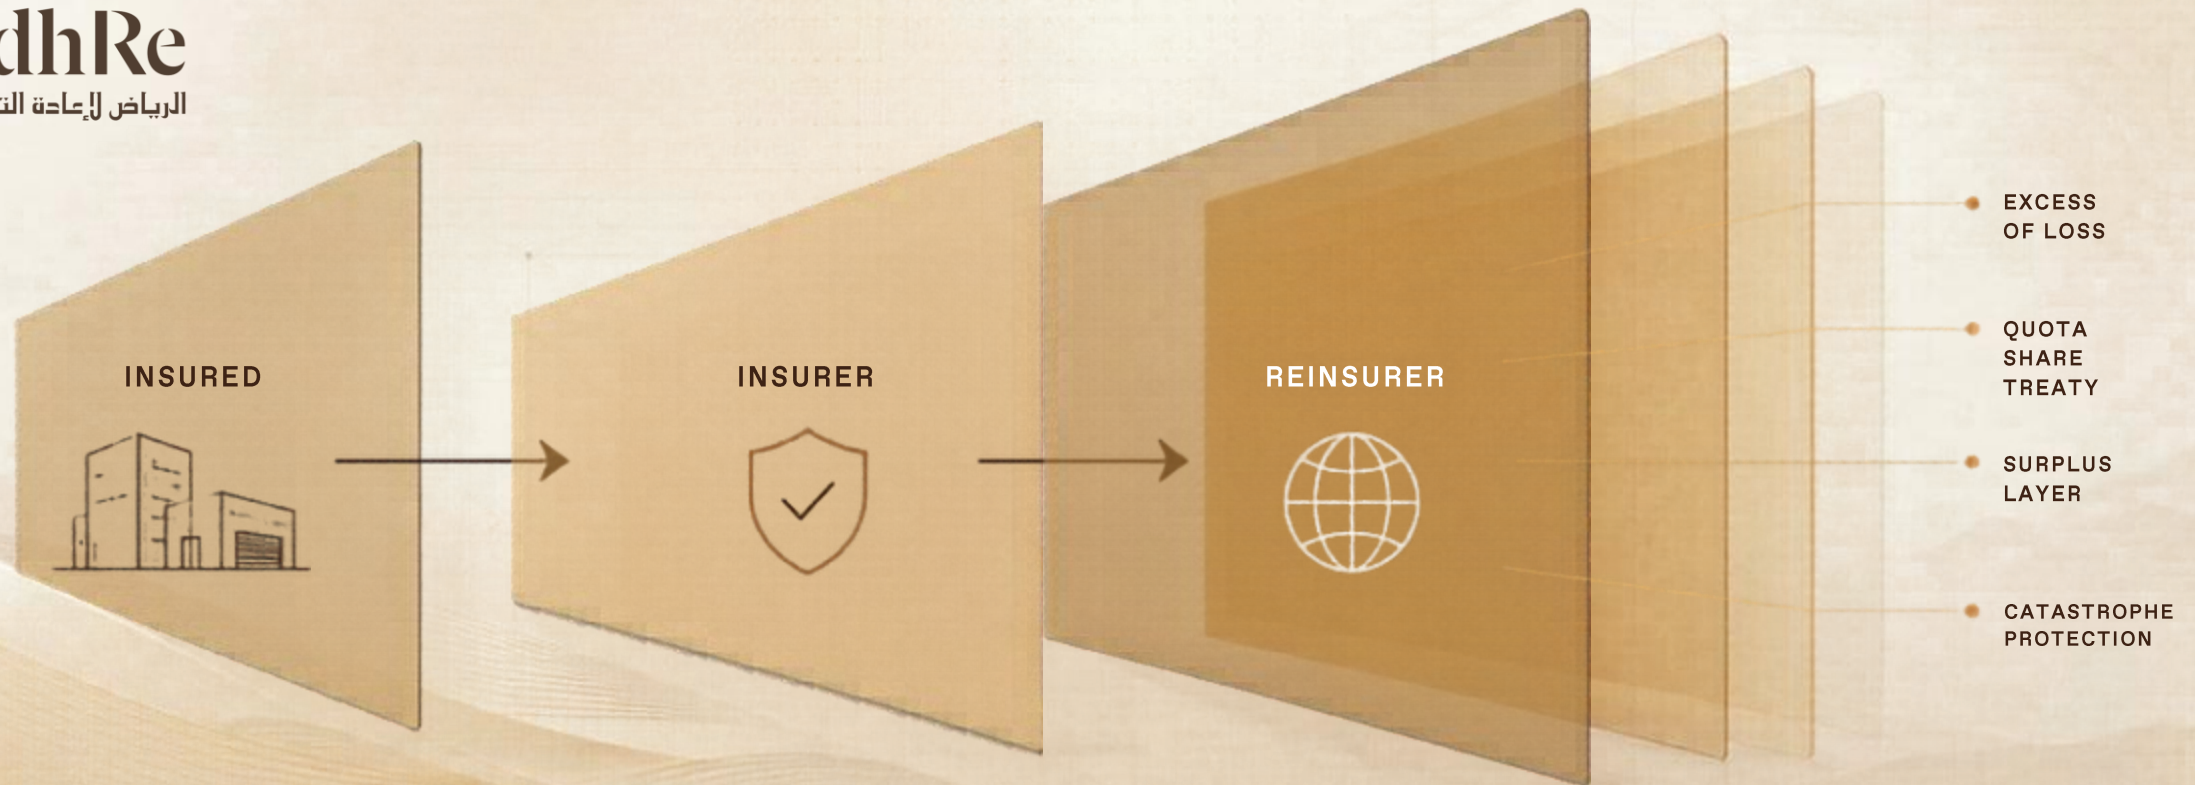

4. BUSINESS UNIT RISK OWNERS

Own and manage risks within their business units; implement controls and escalate as required.
